

# Progress Report

Achieved:

- User sign up/log in working
- Simple UI/navbar
- Started lend and return requests
- Can send emails - making scheduled

Missed:

- Met intermediate goals (have models, and start implementation), but not much past that

## Agenda

- Go over progress
  - problem or design discussions
- Plan giant meeting over weekend

## Meeting Minutes

- copy over mvp from team plan into design doc
- nice UI for final submission! not necessary for MVP.
- suggestion: automatic rating instead of rating friends, since it's awkward to rate a friend. or do both.
